

Specifying Concrete? Know your Standards! - understanding how they interact

Thursday 25 October 2018

**The Concrete Society, Riverside House, 4 Meadows Business Park,
Station Approach, Blackwater, Camberley, Surrey, GU17 9AB**

The Concrete Society is running a one day Technical Seminar involving presentations relating to the practical and theoretical aspects of Concrete Standards.

The event will offer an in-depth insight for engineers, supervisors, students and technicians with the focus upon practical interpretation and interrelation of numerous concrete related Standards; including materials, specification, execution, testing, investigation and remedials amongst others.

The day starts with Registration at 09:15 and will close at approximately 15:30 following a summary of the day's events. A full agenda for the day will be issued upon receipt of applications, including directions to the venue. A literature pack will be supplied which includes a copy of presentations.

Please note that lunch and refreshments are included.

Key relationships:

BS EN 206	Concrete — Specification, performance, production and conformity
