WEBINAR

GFRP reinforcement

28 July 2021

9:30 BST – 60mins duration

FREE

As part of this year's CBDG webinar series, this one hour session will be presented by Vita Mikutaite, Production Specification Engineer, Schoeck. Vita will be joined by colleagues Ahmad Shahin and Youssef Jahjah.

The webinar will cover the production process of straight, bent and headed GFRP bars. Vita will review the mechanical properties of the material, for example Tensile strength, Creep, Flexural strength and Shear, and discuss Design standards and the application of GFRP with respect to concrete bridges.
