

We are once again holding our annual

Training Days

An introduction to Concreting Materials, Production, and Testing

Wednesday 6th June 2018 & Wednesday 13th June 2018

At: Mid Kent College, Maidstone Campus, Oakwood Park, Tonbridge Road, Maidstone, Kent, ME16 8AQ

The Concrete Society – London & South East Region are once again running two Concrete Training Days supported by leading experts from UK materials suppliers including technical presentations and practical demonstrations.

Day 1 – 6th June. Will offer an entry level insight for Engineers, Students, and Technicians into the constituent materials of concrete, how each is produced, how concrete itself is produced and delivered, and how it is tested in its fresh state as well as when hardened.

Day 2 – 13th June. Will be more in-depth and is designed to be a follow-on for those attending Day 1, going into the subjects in more detail. It will also cover a broader spectrum of associated topics.

The days will involve presentations on admixtures, aggregates, cements, concrete production and supply, and testing, as well as practical demonstrations showing how concrete has its basic properties influenced by different admixtures. Each day starts at 09:00 for Registration, and will close at 16:45 following a summary of the day's events. A full agenda for the day will be issued upon receipt of applications, including directions to the venue.

SPACES ARE LIMITED SO EARLY BOOKING IS ADVISED.

Please note that lunch and refreshments are all included. PLEASE ADVISE OF DIETARY REQUIREMENTS.
