

Spring Technical Seminar

Wednesday 1st April 2020

The Elk, Toomebridge, Antrim BT41 3SF

The presentation will start with buffet breakfast from 8.15am, the seminar will commence at 9am

Fibre reinforced concrete industrial ground floors to TR34

- Design
- Construction
- Case Study (Bushmills distillery)

Developments in Low Carbon Concrete Construction

- Based around EU Research Project (RE4)
- Concrete with high levels of CDW aggregate (up to 80% CDW aggregate)
- Cementless geopolymer concrete
- Precast design to fully dismantle and reuse building
- Project Demo Buildings (including R&D Hub at Creagh)

Talks will finish at approximately 12 noon with a light lunch to follow.

After lunch there will be a factory visit to Creagh Concrete production facilities in Toome and also a tour the RE4 project demo building in Creagh.

This is a free event - to register your attendance please contact:

The Concrete Society - regional-events@concrete.org.uk or phone - 01276 607140

Please Note: For the factory visit and RE4 demo building attendees will be required to bring their own PPE; Safety Footwear; High-Viz Jacket and Hard Hat
