

**A cordial invitation to our next FREE to enter event**

***Slipform vs Jumpform  
– What's the Difference?***

***Tuesday 24<sup>th</sup> April 2018***

***18:00 for 18:30***

***At: The Institution of Structural Engineers,  
47-58 Bastwick St, London EC1V 3PS***

**The Concrete Society – London & South East Region**, in our second free “What’s the Difference?” series of talks, are holding an early-evening technical meeting to offer guidance in the often misunderstood requirements of construction using Slipforming or JumpForming. These two construction techniques put different demands on the concrete technology in terms of design, delivery, and placing.

There will be two presentations from leading industry figures, looking at the issues from a contractor and concrete supplier perspective.

Speakers will include **Don Houston**, Construction Director of **Byrne Bros (Formwork)** who will describe and contrast the two construction processes highlighting recent changes in techniques and the need to maintain a high quality surface finish.

**Josh Bennett** from **Tarmac London** will give a ready mix supplier’s perspective in respect of changing requirements such as high strength, high consistence/SCC, controlled setting times and the possible use of micro silica, highlighting the ever-changing requirements for these systems.

There is no charge for admission to the event but we do require notification of your attendance for catering purposes as tea and coffee will be available upon arrival.

Limited exhibition spaces are available for any organisations wishing to provide a stand and networking opportunities. These are at a favourable rate of £150.00 +VAT.

For further information please contact: either Steve Thorpe on 07825 845529, ([stephen.thorpe@cemex.com](mailto:stephen.thorpe@cemex.com)) or Tony Newton on 07770 916479, ([tony.newton@kerneos.com](mailto:tony.newton@kerneos.com)). Alternatively please complete the form below to book your attendance and/or your Exhibition place.

Members and non-members welcome.
