Catching up www.concrete.org.uk

For more than 30 years, The Concrete Society has built on its technical base to become a leading provider of information serving the needs of clients, architects, engineers, specifiers, suppliers, contractors and users of concrete, with emphasis on quality and competitiveness. The flow and availability of sound, practical information of the highest quality is a prime deliverable from The Society.

The April cover

Concrete's main feature this month is Reinforcement. We have articles on steel fibres, cast-in channels and anchors, as well as discussion on responsible sourcing and innovation with basalt-fibre-reinforced polymer reinforcement.

The feature starts on page 12.

Concrete Engineering International

An 18-page review of innovative concrete projects worldwide starts on page 23

Puente Baluarte, Mexico **24**

Bridge suspension tower erected in record time **32**

Bílina pedestrian bridge, Czech Republic **38**
