

Concrete Society Scotland Region

An Introduction to High Performance Precision Non-Shrink Grouts

Wednesday 17th April 2024 18:00pm

Best Western Garfield House Hotel, Cumbernauld Road Stepps, G33 6HW

The Concrete Society Scotland Region is pleased to announce an evening seminar: An Introduction to High Performance Precision Non-Shrink Grouts, delivered by Tim Fitzgerald – Technical Director of Five Star Worldwide.

Tim will provide a factual insight into both non-metallic cementitious grouts which include air release technologies to enhance positive expansion and epoxy grouts along with permanent concrete repair materials.

Tim has a wealth of experience having joined Five Star in 1991 as an engineering specialist. In 1995 he founded Nexgen Construction Products. In 2020, he returned to Five Star Worldwide and was appointed Technical Director in 2022.

The seminar will cover typical usances for the construction industry including materials for rapid return to service, super high strength grouts (12hrs: 15,000 psi (103.4MPa), as well as both high temperature and underwater applications. Tim will also go through some case studies covering a variety of topics which concrete contractors will find of interest.

Refreshments from 18:00pm

Please note this is a free event and we are expecting a high level of interest for this seminar.
