

Technical Event Concrete Canvas – 28th October 2021

Concrete Canvas (CC) is an innovative fabric-like material that is filled with a cementitious mix. Primarily used as an erosion control solution, CC offers time and cost saving opportunities across the rail, road, civils, utilities, public works and petro-chemical industries. The presentation is CPD accredited with all attendees receiving a certificate of attendance. The presentation will cover the following:

- ***Introduction to Geosynthetic Cementitious Composite Mats***
- ***Benefits of using Concrete Canvas over traditional concrete solutions***
- ***Applications of GCCMS***
- ***Overview of project case studies from across the civils industry where Concrete Canvas was installed***

Concrete Canvas Ltd is very pleased to welcome members of the Concrete Society to the working breakfast. There will be a spread (tea, coffee and breakfast) put on for attendees.

Brief outline for the visit:

- 0830 to 0900 Arrival. Sign-in and take tea, coffee and breakfast rolls
- 0900 to 1000 CPD accredited presentation followed by Q&A on Concrete Canvas
- 1000 to 1100 Practical demonstration of installation of material
- 1100 Dispersal

Covid-19 Precautions

Attendees will receive the presentation in a large well ventilated presentation room measuring 8m by 7m. It is the intention for attendees not to wear masks (if they choose) when in the presentation room. In order to facilitate this relaxed environment all attendees are requested to bring with them **proof of Covid-19 double-vaccination or a negative lateral flow test taken within 24 hours of arrival**. Attendees should bring with them a face mask to wear at sign-in on arrival.
