

## Queensferry Crossing Visit

**Tuesday 7<sup>th</sup> March 2017**

**13:00 – 15.30hrs**

The Concrete Society Scotland Region in conjunction with FCBC is pleased to announce a visit to see the continuing progress of the new Queensferry Crossing as it progresses towards its completion. The Queensferry Crossing is Scotland's biggest transport infrastructure project in a generation. On behalf of Transport Scotland, FCBC are delivering a brand new bridge - the Queensferry Crossing - as well as upgrading the connecting road network on both sides of the Firth of Forth. The visit will commence at the Contact & Education Centre, with a presentation by a member of the Contractor's team followed by a Q&A. This will be followed by a bus across the existing Forth Bridge, for a panoramic view of the new bridge.

Due to high levels of interest in previous visits we are expecting a high demand for places, so to avoid disappointment please complete and return the slip below ASAP.

<Please note places are strictly on a first come – first served basis – maximum 3 per booking>

**Where to meet us:**

Forth Replacement Crossing  
Contact and Education Centre

Adjacent Forth Road Bridge  
Administration Building

Ferrymuir Gait

South Queensferry

West Lothian

EH30 9SF \*

If using a GPS, enter 'Ferrymuir  
Gait' and not the post code
